## End of Life Notification

# Raidtec Solutions 80GB SATA DISK DRIVES and associated 80GB variants of SNAZ S4 and S8

Please be advised that, effective June 2005, the supply of **80GB Disk Drives** and associated variants of **SNAZ S4** and **SNAZ S8** are formally discontinued and these variants are "End of Life" (EOL).

### Reasons:

The 80GB disk drives used in these SNAZ variants are declared EOL by the relevant disk drive manufacturers and will shortly become unavailable. In June 2005, the entry level in the Raidtec Solutions products was raised from 80GB to 160GB. This was enabled by the progress in disk drive technology and the resulting purchase cost reductions being passed on to our customers.

### Product Line Changes:

SNAZ S4 and S8 entry-level disk drive were upgraded from 80GB to 160GB as of 31<sup>st</sup> May 2005.

### Discontinued Product Model Numbers:
