

September 2006

End of Life Notification

Raidtec FibreArray X3204 & X3102 2Gb FC to FC Disk RAID storage

Please be advised that, effective September 2006, the supply is discontinued for Raidtec Solutions FibreArray X3000 systems variants X3204 and X3102, using the single channel SSC-2 controller.

These variants, X3204 and X3102 are formally “End of Life” (EOL).

Reasons:

All available SCC-2 controllers are consumed and this product is not RoHS compliant.

Discontinued Product Model Numbers:

Models	Description
Variants: RQ2D - SJ ce - nnzz RQ2D - SF ce - nnzz RQ2S - SI ce - nnzz RQ2S - SE ce - nnzz	<p>X3204 dual SSC-2 controller (single-channel) 2Gb FC system</p> <p>Where SJ represents single-channel controller with Optical FC connected expansion SF represents single-channel controller with Copper FC connected expansion Where c represents cache: G = 512GB, H = 1GB, I = 2GB Where e represents the number of expansion units originally supplied</p> <p>X3102 single SSC-2 controller (single-channel) 2Gb FC system</p> <p>Where SI represents single-channel controller with Optical FC connected expansion SE represents single-channel controller with Copper FC connected expansion Where c represents cache: G = 512GB, H = 1GB, I = 2GB Where e represents the number of expansion units originally supplied</p> <p>Where - nnzz represents the number and type of enterprise 10,000rpm or 15,000 FC disk drive originally supplied</p>

Last shipments: September 2006

End of Support:

Plasmon commits to provide Service, Spares and Technical Support for X3204 and X3102 for 3 years from the date of shipment of the X3000 and in any case, **End of Support no later than October 2009.**

For more information or clarification please email Plasmon Support on support@plasmon.co.uk.
