

End of Life Notification

Raidtec Solutions SNAZ E0 / SNAZ Elite

Please be advised that, effective September 2005, the Raidtec **SNAZ Elite E0** diskless NAS head and associated Options and Accessories is formally “End of Life” (EOL).

Reasons:

All materials consumed.

Product Line Changes:

The SNAZ Elite E0 is a disk-less NAS head using Raidtec’s proprietary SNAZ OS v3 designed to deliver file services to client users through a Gigabit Ethernet interface using SAN storage connected though a FC HBA.

The SNAZ product line continues with Plasmon’s SNAZ S4-400 and S12-400 however, there is no diskless NAS head variant in the product line for the time being.

Discontinued Product Model Numbers:

Models	Description
Main Variants: RPZZ – TRG0 – 00ZZ	SNAZ Elite E0 disk-less NAS Head with standard 256MB cache using customer supplied FC HBA to connect to storage
RPZF - TRG0 – 00ZZ	Factory supplied with FC HBA with Optical FC interface
Alternative optional variants: RPZZ-TRH0 – 00ZZ	Variants with Cache 1GB instead of standard 256MB
RPZC - . . .	Variants with FC HBA with Copper.FC interface

Last shipments of E0 July 2005

End of Support:

Plasmon commits to provide Service, Spares and Technical Support for SNAZ Elite / E0 for 3 years from the date of shipment and **in any case no later than July 2008.**
