

1st October 2004

**End of Life Notification for
Plasmon's V-Series Tape Libraries in EMEA**

Please be advised that effective immediately V-Series Tape Libraries are End of Life and End of Supply. The products that are involved are as follows;

V40-Lx-yz	40 slot LTO Library
V60-Lx-yz	60 slot LTO Library
V68-Lx-yz	68 slot LTO Library
V102-Lx-yz	102 slot LTO Library

Where Lx represents the drive type (LTO 1 or LTO 2).

Where y represents the number of drives installed.

Where z represents the model.

Library upgrades, such as drive upgrades, slot upgrades and redundant power supplies will be End of Life effective 1st November 2004 and End of Supply effective 31st December 2004.

Plasmon commit to provide service and support to the products listed above until 31st December 2009.

For more information or clarification on any points listed above please contact your Plasmon Regional Office.
