

Related Product: **SNAZ OS v4.00 and BakBone NetVault v7.1**

Release: February 2006

Using the correct version of BakBone NetVault GUI with NetVault v7.1 integrated with SNAZ OSv4.00

The BakBone NetVault **v7.1** that is integrated into SNAZ OS v4.00 cannot be used with the NetVault **v7.4** GUI that is currently available for download from the BakBone web site.

To use SNAZ NetVault please install the NetVault GUI (server) from the NetVault folder on the SNAZ Software and User Documentation CD supplied with the SNAZ system or download from the Plasmon Technical Support website:
